Figure 8. (A) NTP-like immunoreactivity of the foregut and midgut of Reticulitermes flavipes. Immunoreactive enteric plexus cell bodies on the surface of the proventriculus (arrowhead). Immunoreactive axons on the midgut surface (arrow). (B) Immunoreactive axons on the rectum and posterior hindgut/rectal junction (arrowhead). Abbreviations: hg, hindgut; mg, midgut; pv, proventriculus; r, rectum. Bars = 100 μm.
